

Quick Start User Guide

The screenshot shows the Microsoft Power Apps home page. On the left, there's a sidebar with options like Home, Create, Learn, Plans, Apps, AI hub, Tables, and Flows. The main area is titled 'Apps' and contains four cards: 'Start with Copilot', 'Start with data', 'Start with a page design', and 'Start with an app template'. At the top center, there's a search bar and a navigation bar with 'Power Apps', 'Search', 'Environment Cogent Holdings Pte. Lt...', and icons for notifications, settings, and help. A button labeled '+ Import app' is highlighted with a black rectangle.

Select Import App

The screenshot shows the 'Select environment' dialog. It has a purple header with the environment name 'Cogent Holdings Pte. Lt...'. Below it is a search bar and a 'Filter' dropdown. The main area lists environments under 'Build apps with Dataverse (1)' and 'Other environments (1)'. The environment 'John Tan Vie Ming's Environment' is highlighted with a black rectangle. At the bottom, there's a note: 'Select environment (license permission)'.

Select either environment. Import (Save) App to environment.

Click 'Play' button to launch App. Follow on-screen instructions.

company code SG77 X SG79 X SG88 SG73 SG77 SG78 SG79 SG80 SG81 SG82 SG83	vendor number 1000052865	name DHL EXPRESS (S) PTE LTD
---	------------------------------------	--

Dropdown enables multi-select

Submit Email

*all fields required

Dropdown enables users to select multiple company codes with the same vendor number.

Refer to documentation for more details.
